## Did You Know Best Carries ...

### Heavy Duty Contractor Hoses

#66825 – 25'  
#66850 – 50'

This heavy duty contractor hose is reinforced with springs to reduce kinking. It is safe for water up to 100°F and drinking water applications, is abrasion resistant, and easy to clean. **pg. 6-102**

- Inside Diameter 5/8"
- Burst Pressure Rating 300 PSI

### Vandal Proof Flow Regulator Assortment Kit #23246

Contains an assortment of 40 vandal proof aerators in the most common sizes and GPM ratings as well as an aerator removal key. **pg. 2-13**

### Big Foot Closet Bolts

#54479

The unique design is easy to get into the flange and is kept steady with a large foot that will not spin or dislodge. The bolt is exceptionally durable and constructed with blue anodized aluminum that will not rust or corrode.

**pg. 5-1**

- 5/16-18" threading x 2-1/2" length
- Extra thick washer won't warp when tightening toilet
- One size fits all - great for cast iron and other flanges with wide bolt channels

### Liberty 1/2HP Utility Transfer Pump #11694

This portable pump is perfect for boosting water pressure, draining hot water tanks and general water transfer. **pg. 10-77**

- One-piece cast aluminum pump and motor housing with integral carry handle
- Permanently lubricated bearings
- A convenient On/Off switch
- Powerful 1/2 HP motor capable of pumping to over 100 feet of head
- 20' Power Cord

### Evap Foam No Rinse

#99042824

Evap Foam "no rinse" is a high-performance, heavy-duty detergent, specifically formulated to liquefy dirt, grease, oil, and other residues quickly and easily. The aerosol product can be sprayed at any angle, and is ideal for use on most coils, but particularly suited for cooling or evaporator coils. Simply spray Evap Foam on the coil and the foam will wash the emulsified matter off. **pg. 6-89**

- Pleasant lemon scent
- Food safe
- Corrosion inhibitors make it safe on metals.

### Fin Tool #11326

The convenient and safe way to straighten and clean condenser and evaporator fins. Comes with 6 different fin heads. **pg. 9-15**
